MILLION-DOLLAR EMBEZZLER'S TRAIL LEADS HERE

100 ARE STRICKEN BY POISONED ICE CREAM

FIVE THOUSAND PICNICKERS IN PANIC AS VICTIMS FALL ON EVERY SIDE.

SALISBURY BEACH, Aug. 13.—Because six persons narrowly escaped death and many are suffering from the effects of poison caused by eating ice cream, the health officers of Salisbury and Newburyport are preparing an investigation that promises decisive results.

That the poisoned ice cream was sold by peddlers has been ascertained today beyond question. The investigation has just begun, but it has been learned that it was ice cream sold along the beach by the peddlers that turned this place into a hospital, filling the hotels and private houses with the sick.

5,000 in Panic as Victims Are Stricken

During the festivities of the "Haverhill Day" yesterday the occasion being the sailing of the Haverhill Greaves and Provincetown Greaves, a large number of picnickers, attracted by the sight of the regatta, were sitting on the beach, eating ice cream. At that time a peddler came along with a large quantity of ice cream, and began to sell it. The peddler was a man of about 30 years of age, and was dressed in a suit and tie. He was selling the ice cream in a large quantity, and the picnickers were eating it with great relish. At that time the peddler was selling the ice cream in a large quantity, and the picnickers were eating it with great relish. At that time the peddler was selling the ice cream in a large quantity, and the picnickers were eating it with great relish.

The Dangers of Ill.

Edward (recovered) Michael King, Miss Sade Thayer, John Murphy, all of Haverhill; Miss Young Adams of Manchester, N. H.; and Thomas Sheple of Lawrence. Those that were considered seriously ill, although not fully recovered, are: Harold Barry, Miss Jones, John Clifford, Annie Cuskey, Miss Jones, William Pitt, Mr. Charles Tilton, Miss Hill, Miss Adams, all of Haverhill; Harold Raymond of Newburyport; John W. of Amesbury; Miss Philanthropy of Salisbury; Mrs. E. F. Chase and Edward King of Salisbury; and Miss M. of Amesbury.

Chief of Police Samuel Twombly has asked the ice cream and operators of all the peddlers of the beach, and has also asked the police of the other towns, to make a search for the peddler who sold the ice cream that caused the trouble.

DEALERS SAY ICE CREAM WAS THEIR OWN MAKE

SALISBURY BEACH, Aug. 13.—The four ice cream dealers who sold their product to the crowd yesterday and whose goods are said to be responsible for the sickness of many who attended the regatta, have denied the charge. They say that the ice cream was made by a local factory, and that they were only the dealers. They say that the ice cream was made by a local factory, and that they were only the dealers. Close Watch On All Railroad Stations and Steamship Lines—Police Think Fugitive Is Trying to Escape to Europe Through this Port.

Boston police to-day are watching for Paul O. Stensland, the defaulting president of the Milwaukee Avenue State Bank of Chicago, for whose apprehension the Chicago Clearing House Association offers a reward of \$5,000. Milwaukee police believe the defaulter will try to escape to Europe from Boston.

Chief Watts has inspectors at the railroad stations and steamboat wharves. The transatlantic steamer lines are being watched particularly. It is thought that Stensland is trying to leave the country, possibly for his native land of Norway, in the hope of getting friends' aid to conceal him. Especial attention is being given lines between here and Hamburg, Bremen or other North European ports.

This watch is being kept here at the request of Police Chief O'Neill of Chicago, following dispatches from Pittsburg, which say that Stensland was seen leaving Pittsburg at 8 a. m. yesterday, via the Pennsylvania express for Jersey City. This would have landed him in New York before midnight last night.

ON MIGHTY TO BOSTON.

By this theory Stensland could have taken the midnight express to Boston, and if he did not get there, he could have taken the morning train to New York and come by a later train, even taking a circuitous route to some smaller city and then coming in here eventually to a local line in case the police would watch only the through trains.

According to the original Pittsburg dispatches, Stensland knew he was being watched in that city, and if he reads the news that he is being watched in Boston, he will be immediately on his guard. He will be immediately on his guard. He will be immediately on his guard.

PARTICULAR WATCH ON SHIPS.

Chief Watts immediately communicated this notice to his inspectors, laying particular stress on the steamboat end of the matter.

The North Station Inspector (under a keeping watch in case Stensland tries to enter the city by way of the Frisco line) has been instructed to keep a watch on the ship end of the matter.

3,000 STRIKERS ARE BACK AT WORK

ADAMS, Aug. 13.—Over 3,000 strikers in the four mills of the Lake Shore Cotton Company returned to work to-day, ending a three-week strike. The company granted several minor concessions to the strikers, but refused to reemploy Samuel Whitman, president of the strikers' union, whose discharge the company refused to rescind.

NATION WATCHES LABOR'S WAR AGAINST LITTLEFIELD

TRAIN KILLS SLEEPING BABE

FITCHBURG, Mass., Aug. 13.—Bellina Dugas, age twenty-two months, of No. 47 Hartford street, was run over near Dennis Crossing this morning by a freight train on the New York, New Haven & Hartford Railroad. The child lived near the railroad and wandered from her home to the track. She fell asleep and lay across one of the rails.

Engineer Manuel Truman says he blew the whistle sharply as he rounded the sharp curve there, but did not see the child until he was a few yards away. The engine and three cars ran over the lower part of her body, cutting off the right leg and mangled the baby shockingly. The child was killed instantly.

DYNAMITE CAR BLOWS UP; 50 MEN KILLED

GANG OF LABORERS BLOWN TO ATOMS BY TERRIFIC EXPLOSION IN TEXAS.

EL PASO, Tex., Aug. 13.—By the explosion of a carload of dynamite at the Chihuahua & Pacific Railway depot in Chihuahua, late yesterday, about fifty persons were killed. The dynamite was being transferred from a Mexican Central Railroad car to a car of the Chihuahua & Pacific. One of the men who was in the car at the time of the explosion was killed. The explosion was caused by a man who was in the car at the time of the explosion. The explosion was caused by a man who was in the car at the time of the explosion.

FRANCIS MUST WAIT, SAYS THE KAISER

BERLIN, Aug. 13.—David R. Francis, president of the St. Louis exposition, is in Berlin and desires an audience with the Emperor for the purpose of presenting to him a special commemorative of the exposition. Ambassador Koser informed Francis yesterday that the Emperor would have to wait until the autumn. Francis does not know whether he will be able to stay so long.

But a Little LATE. Their Entire SYSTEM Should End

"We mustn't interfere with the will of Providence," says this religious insurance company, and refuses to pay.

Nothing WILL be done UNLESS THE ENTIRE PEOPLE TAKE A HAND AND EXPRESS THEIR OPINION IN VOTING.

It is only natural for corruption to spread, whether it be among apples in a barrel, among individuals, or among insurance companies.

In a country where an insurance company can take in millions in premiums, as one company did in Chicago, and then refuse to pay San Francisco losses, although those losses amounted to far less than the premiums taken in, there will always be found thieves to go into that kind of business.

The American people should follow in this as in many other matters the excellent example of New Zealand.

The people should realize that the inhabitants of this country give to the insurance companies every year ONE HUNDRED MILLIONS OF DOLLARS MORE THAN THE COMPANIES PAY FOR LOSSES.

In other words, the people give outright to the companies every year **ONE HUNDRED MILLION MORE THAN THEY GET BACK.**

We make a fuss about digging a Panama Canal—we are not doing it yet, by the way—and yet, without a murmur, we give to insurance people enough money in two years to build the canal.

The city of New York cries and weeps BECAUSE IT CANNOT AFFORD TO BUILD SCHOOLHOUSES FOR THE CHILDREN.

And it gives every year to insurance companies over and above what it gets back enough to provide the schools that it "cannot afford."

In New Zealand the people run their own insurance departments—a natural, sensible plan. They do not forbid private companies to do business if they wish, and private companies do exist in New Zealand and work at a profit in competition with the government.

BUT YOU NEEDN'T SUPPOSE FOR A MOMENT THAT ANY SWINDLING, WELCHING FIRE INSURANCE COMPANY COULD LIVE OUT THERE FOR A WEEK.

THE GOVERNMENT, OF COURSE, NEVER FAILS TO PAY WHAT IT HONESTLY OWES. Government fire insurance, like the government savings banks, **CANNOT** go into bankruptcy. The people **KNOW** that.

It would be a perfectly simple thing for the nation, the State or the municipality to combine fire insurance with taxation.

And, incidentally, it might be a very good way to get at **THE TAX-DODGERS**. If a man's house were insured by the government for the sum on which he pays taxes, he would be pretty careful about paying taxes **FULLY**.

If you question those who are selfishly interested they will tell you promptly that it would be "paternalism" or "socialism" for the government to go into insurance.

Why is it any more socialistic to let the government insure property in return for payment by citizens THAN TO LET THE GOVERNMENT KEEP UP A FIRE DEPARTMENT?

If the city government can spend its money and organize a force to keep buildings from burning down, and to save lives that are in danger, WHY HASN'T IT A RIGHT TO ORGANIZE A FINANCIAL DEPARTMENT TO INSURE THE CITIZEN AGAINST LOSS OF HIS PROPERTY AS WELL AS AGAINST THE LOSS OF HIS LIFE?

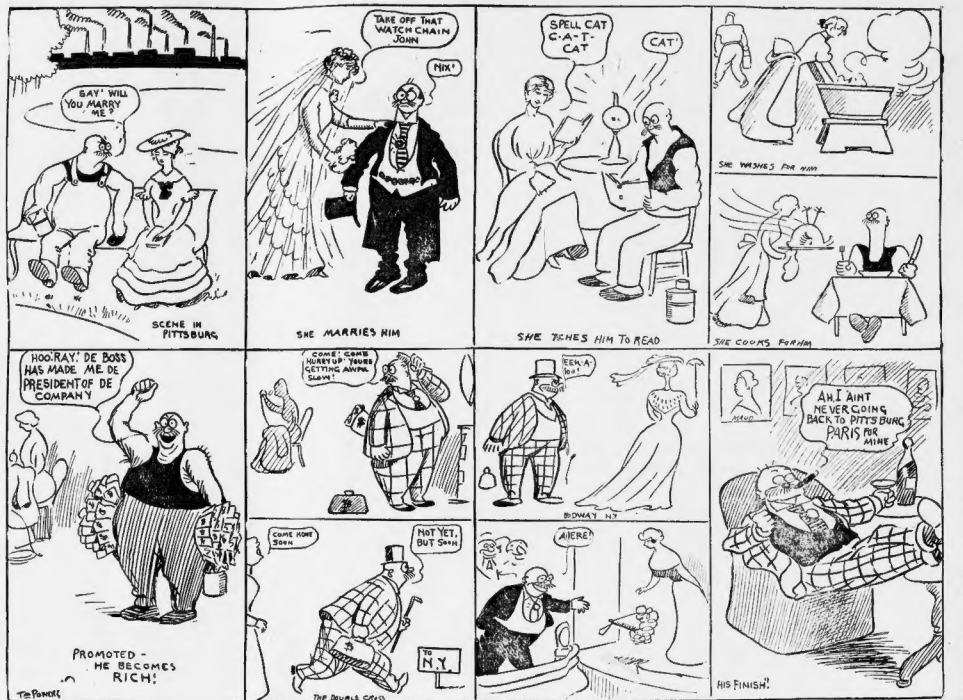

The trouble is, fellow-citizens, that government is managed by the gentlemen who want to exploit the great crowd. THEY say what the government shall do, and shall not do.

And they say especially THAT THE GOVERNMENT SHALL NOT INTERFERE WITH THEIR PLANS OF PUBLIC ROBBERY, WHETHER IT BE THROUGH LIFE INSURANCE, FIRE INSURANCE, EXPLOITATION OF MONOPOLIES OR OTHERWISE.

How long are you going to STAND this? When are you people going to vote INDEPENDENTLY for yourselves, and organize a government with the idea that it shall work to protect YOU and not to promote the welfare of men that have enough and too much already?

THE BOSTON AMERICAN would like to hear from readers of

the paper. We want your ideas. Write a letter occasionally on some current event that interests you. If you see something in the paper that displeases you, let us know about it. Editor BOSTON AMERICAN:
 I notice you head your report of Monday's meeting of the committee on municipal lighting with these words, "City Lighting, sponsored by the Committee" and

ing Again Shaved by the Committee" and wind up your report by saying that Alderman Linehan and Councilman McEloughlin can be depended upon to solve the situation honestly and frankly.

It is my hope that Mr. Alderman Linehan and Councilman McEloughlin that prevented the committee from taking any action, because had these two members of the com-

multitude, who are so deeply interested in municipal ownership, or at least are, here, present, the committee would have a quorum and would be authorized to call on the gentlemen who ignored the request of the committee to appear before it to come and tell us something about the contract under which the city now receives its lights.

And we a quorum we would force ex-

Mayor Josiah Quincy told the Hon. James Donovan to come and tell us whether it was by their ignorance of the situation and their carelessness in failing to ascertain the true condition of affairs, or by their connivance, that the city was made a party to a contract which robs the taxpayers of thousands of dollars annually.

Doubt About Effect.

While there is a strong feeling among Democrats that Mr. Burden's election will tend to solidify the organized labor vote, it is not believed that the invasion of this territory by the hand of the American labor leader will be the first step toward the benefit of Mr. McMillin.

The Lewiston and Bangor Central Labor Union has not as a body taken a position in the congressional campaign. It is, however, beginning to try to divert from its two pledged allies of credit to the President.

There Was a Big Side Show.

There was a big side show for the fans during the game. It was one of the most laughable things ever seen on a diamond. Joe Tammell hit in front of the plate in the seventh. Peter picked up the ball and tossed it to Peter to force him out. Joe Tammell, who had been in the game for some time, was hit by a ball. The ball hit him on the head and he was knocked out. The game was then suspended for some time.

Notes of the Game.

Pat Dougherty, the favorite, didn't get a hit.

Both Carter Lee Criger and Third Base man Collins practiced before the game. The pair is badly needed.

"Red" Morgan made a rank out of Pat Dougherty's foot in the first. Then Pat named.

Peterson had to go to the box after Fidler Jones' foul in the third.

Parent tried to score from second on Walsh's wild throw in pitcher's box. The ball was hit by the pitcher.

Parent made one of the worst stops and throws of the season. Walsh's throw in the third was good for a single.

ROCKPORT BOYS AS MASTERS

Entertain Citizens of Rockport With Lively Show and Boxing Match.

Special to the Boston American. ROCKPORT, Aug. 16.—An aggregation of sailor minors from the ships of Admiral Viscount's fleet, who were entertained at 1,100 people in the Town Hall last night. The show was unique for its place, and was also a success. The sailors are no good blackface artists. The program was not too long, and was full of fun from start to finish. The boys had their own show to work and a few to apply locally. The band from the Alamo and the Mandolin Club entertained with musical selections, and the foot on a circus looked after the part on the program.

The wad of the minstrel show was a three-rod boxing exhibition between the lively, champion boxer of the city, Katschberger, and his underling, Henry. This was particularly interesting to the crowd, being a new thing in this place.

Women Applaud Boats.

Only a few women and young girls left the hall when the boxing match started. The majority of the women in the audience took the exhibition enthusiastically. Members of the local police were on hand to see that the law was not violated, and they were also interested in the exhibition. The exhibition was a success, and the crowd was very large.

Concert for Ball Teams.

Admiral Viscount announces that tomorrow night will be held the first of a series of concerts to give a pop concert to the Town Hall, the proceeds to go to the baseball teams of the fleet.

This afternoon the captain and officers of the Lusitania, the ship of the fleet, were in the hall, and the concert was a success. The concert was a success, and the crowd was very large.

AND THINK OF YOUR OWN WELFARE, AND WORK FOR PUBLIC OWNERSHIP OF NATURAL MONOPOLIES AND PUBLIC CONTROL OF ALL CORPORATIONS IN THE NATION, THE STATE AND THE CITY UNTIL YOU GET GOOD GOVERNMENT? Are you going to work and vote for yourselves or go on forever fattening the Rockefellers and the Morgans and the Belmonts and the others that bleed you by buying your representatives?
